

原著

<英文>

Akashi A, Kanamori A, Nakamura M, Fujihara M, Yamada Y, Negi A. Comparative assessment for the ability of Cirrus, RTVue, and 3D-OCT to diagnose glaucoma. *Invest Ophthalmol Vis Sci* 54:4478-84.2013.

Akashi A, Kanamori A, Nakamura M, Fujihara M, Yamada Y, Negi A. The ability of macular parameters and circumpapillary retinal nerve fiber layer by three SD-OCT instruments to diagnose highly myopic glaucoma. *Invest Ophthalmol Vis Sci* 54:6025-32.2013

Kanamori A, Naka M, Akashi A, Fujihara M, Yamada Y, Nakamura M. Cluster analyses of grid-pattern display in macular parameters using optical coherence tomography for glaucoma diagnosis. *Invest Ophthalmol Vis Sci* 54:6401-8.2013

Kanamori A, Nakamura M, Tomioka M, Kawaka Y, Yamada Y, Negi A. Structure-function relationship among three types of spectral-domain optical coherent tomography instruments in measuring parapapillary retinal nerve fibre layer thickness. *Acta Ophthalmol* 91:e196-202.2013

Kanamori A, Nakamura M, Yamada Y, Negi A. Spectral-domain optical coherence tomography detects optic atrophy due to optic tract syndrome. *Graefes Arch Clin Exp Ophthalmol* 251:591-5.2013

Miki A, Kanamori A, Negi A, Naka M, Nakamura M. Loss of aquaporin 9 expression adversely affects the survival of retinal ganglion cells. *Am J Pathol* 182:1727-39.2013.

Nakano S, Kanamori A, Nakamura M, Mizukawa K, Negi A. Paraneoplastic optic neuropathy associated with cerebellar choroid meningioma. *Eye (Lond)* 27:1220-1.2013

Nakano S, Kanamori A, Nakamura M, Mizukawa K, Negi A. Paraneoplastic optic neuropathy associated with cerebellar choroid meningioma. *Eye (Lond)* 27:1220-1.2013

Sakamoto M, Kanamori A, Fujihara M, Yamada Y, Nakamura M, Negi A. Assessment of IcareONE rebound tonometer for self-measuring intraocular pressure. *Acta Ophthalmol* 2013.

Tanigawa M, Tsukahara Y, Yamanaka H. A case of acute posterior multifocal placoid pigment epitheliopathy demonstrating vogt-koyanagi-harada disease-like optical coherence tomography findings in the acute stage. *Case Rep Ophthalmol* 4(3):172-9.2013.

Kanamori A, Naka M, Akashi A, Fujihara M, Yamada Y, Nakamura M. Cluster analyses of grid-pattern display in macular parameters using optical coherence tomography for glaucoma diagnosis. *Invest Ophthalmol Vis Sci* 27: 54(9):6401-8. 2013

Akashi A, Kanamori A, Nakamura M, Fujihara M, Yamada Y, Negi A.
The ability of macular parameters and circumpapillary retinal nerve fiber layer by three SD-OCT instruments to diagnose highly myopic glaucoma.
Invest Ophthalmol Vis Sci 54(9):6025-32. 2013

Akashi A, Kanamori A, Nakamura M, Fujihara M, Yamada Y, Negi A.
Comparative assessment for the ability of Cirrus, RTVue, and 3D-OCT to diagnose glaucoma. *Invest Ophthalmol Vis Sci* 10:54(7):4478-84. 2013

Kanamori A, Nakamura M, Tomioka M, Kawaka Y, Yamada Y, Negi A,
Structure-function relationship among three types of spectral-domain optical coherent tomography instruments in measuring parapapillary retinal nerve fibre layer thickness. *Acta Ophthalmol* 91(3):e196-202. 2013

Kanamori A, Nakamura M, Yamada Y, Negi A. Spectral-domain optical coherence tomography detects optic atrophy due to optic tract syndrome. *Graefes Arch Clin Exp Ophthalmol* 251: 591-595.2013

Otsuka H, Kawano H, Sonoda S, Nakamura M, Sakamoto T: Particle-induced endophthalmitis: Possible mechanisms of sterile endophthalmitis after intravitreal triamcinolone. *Invest Ophthalmol Vis Sci* 54: 1758-1766.2013

Miki A, Kanamori A, Negi A, Naka M, Nakamura M. The loss of aquaporin 9 expression adversely affects the survival of retinal ganglion cells. *Am J Pathol* 182: 1727-1739.2013

Sakamoto M, Kanamori A, Fujihara M, Yamada Y, Nakamura M, Negi A. Assessment of IcareOne rebound tonometer for self-measuring intraocular pressure. *Acta Ophthalmol* 2013, Epub ahead of print

Kanamori A, Nakamura M, Tomioka M, Kawaka Y, Yamada Y, Negi A. Structure-function relationship among three types of spectral-domain optical coherent tomography instruments in measuring parapapillary retinal nerve fiber layer thickness. *Acta Ophthalmol* 91: e196-202.2013

Akashi A, Kanamori A, Nakamura M, Fujihara M, Yamada Y, Negi A. Comparative assessment for the ability of Cirrus, RTVue, and 3D-OCT to diagnose glaucoma. *Invest Ophthalmol Vis Sci* 54: 4478-4484.2013.

Kato T, Meguro A, Nomura E, Uemoto R, Nomura N, Ota M, Kashiwagi K, Mabuchi F, Iijima H, Kawase K, Yamamoto T, Nakamura M, Negi A, Sagara T, Nishida K, Inatani M, Tanihira H, Aihara M, Araie M, Fukuchi T, Abe H, Higashide T, Sugiyama K, Kanamoto T, Kiuchi Y, Iwase A, Chin S, Inoko H, Mizuki N. Association study of genetic variants on chromosome 7q31 with susceptibility to normal tension glaucoma in a Japanese population. *Eye* 27: 979-983.2013.

Kanamori A, Akashi A, Nakamura M, Fujihara M, Yamada Y, Negi A. The ability of macular parameters and circumpapillary retinal nerve fiber layer by three SD-OCT instruments to diagnose highly myopic glaucoma. *Invest Ophthalmol Vis Sci* 54: (9): 6025-6032.2013.

Kanamori A, Naka M, Akashi A, Fujihara M, Yamada Y, Nakamura M. Cluster analyses of grid-pattern display in macular parameters using optical coherence tomography for glaucoma diagnosis. *Invest Ophthalmol Vis Sci* 54 (9): 6401-6408.2013.

Nakano S, Kanamori A, Nakamura M, Mizukawa K, Negi A. Paraneoplastic optic neuropathy associated with cerebellar choroid meningioma. *Eye* 27 (10): 1220-1221.2013.
